Welcome to Howe Gardens

You are always welcome at HOWE GARDENS, where you can choose varieties that please you most.

We specialize in Daylilies and grow many varieties not listed.

Our Iris list has been discontinued, but we want to assure our many local Iris customers that we still grow many of the best varieties and they will have many varieties from which to choose when they visit us.

Iris will be at their best the first week in June and Daylilies will be at their peak in July, although there will be some bloom from spring 'till frost.

Iris shipments, July to Sept. 1.

Daylily shipments in May, also Aug. 15 to Oct. 1.

We do not offer cash discounts but do supply good plants at reason-

able prices and welcome your suggestions for extra plants which we ship with all orders. If you prefer, on orders of \$15.00 or more you may select 30% more plants. This applies to all varieties, except new introductions and collections.

COLLECTIONS. 10 good Iris for \$5.00, or 8 good Daylilies for \$5.00. You choose the colors you want, we choose the varieties.

DAYLILIES will grow in any type of soil, but will appreciate plenty of moisture near blooming time, though they are very drought resistant.

They will bloom best in full sun, but will do well in part shade.

Set the plants no deeper than one inch and firm the soil and water well until plants are established.

On late set plants provide a light winter covering for the first winter.

We are members of the AMERICAN HEMEROCALLIS SOCIETY GROWERS ASSOCIATION.
